Best Practices for Grade Center Management in Bb

1-Deleting Assessments:

Anywhere in Bb you pushed an assessment for your students and you indicated points possible (or for grading), Blackboard will create a column in the Grade Center automatically:

3	Grading	
L	✤ Points Possible	50

- If you have assessments (tests, assignments, Safe Assign, Discussion Board forums, etc....) that you didn't use or you are not planning to use, you need to delete them from the content areas (w here they are deployed). Once you delete these not needed assessments from the Content Areas, the associated columns in the Grade Center will be deleted automatically. You cannot delete the Grade Center Column of these assessments without deleting them from the content areas.

-If you decide to hide these columns from the student view, make sure to select **"Hide from Students** (on/off)"

🤍 Week 14 Discus 🤍 Week 15 [😣

View Grade History
Edit Column Information Column Statistics
Set as External Grade
Hide from Students (on/off)
Sort Ascending Sort Descending Hide from Instructor View

2-The Hide from Students (on/off) Option:

If you are grading any kind of an assessment in the Grade Center and you w ant to hold the grades and then release them all at once for your students, you can hide the column from your students' view, then show it at the time of grade release. Hidden columns from you students' view will show up in your view with a red bar crossing a circle:

Set as External Grade
Hide from Students (on/off)
Sort Ascending
Sort Descending
Hide from Instructor View

After you selected the Show /Hide to Users option, you can hide it from you view using Hide Column. Hidden columns in the Grade Center can be shown again through the Manage area>>>Column Organization.
