

FORT HAYS STATE UNIVERSITY

LEARNING TECHNOLOGIES

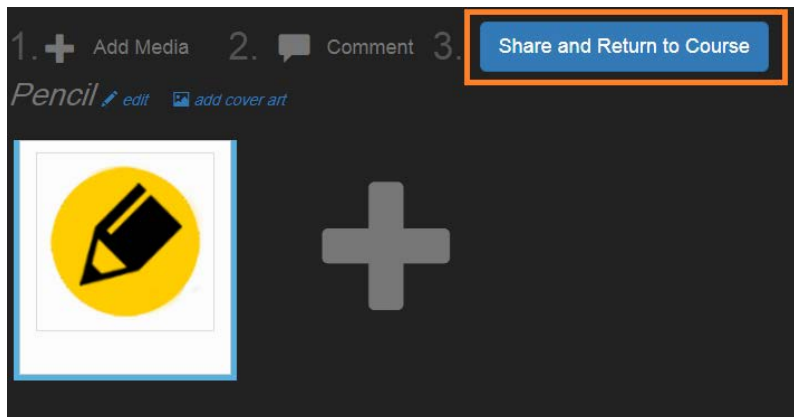

Forward thinking. World ready.

Sharing in Course View

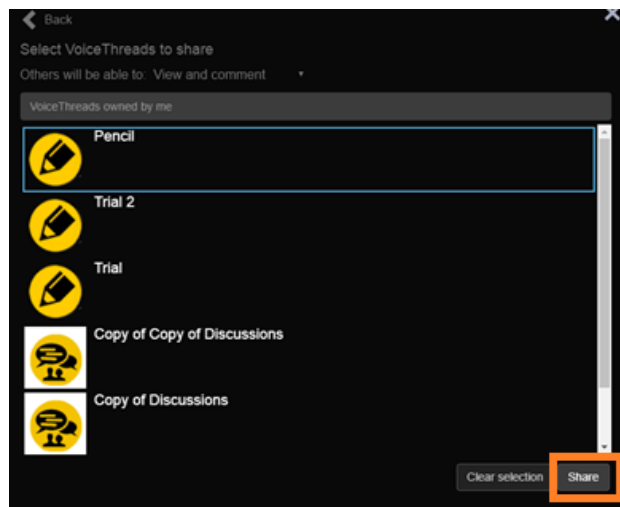

- Course View allows both the instructor and students to view all VoiceThreads that have been shared with the course. If you wish to add a VoiceThread to the list then go to your “Course View,” and click on where it says “Add your own” in the top right. You are then given the option to create a Voice Thread, or select one from your list.

- If you created one to share, click “Share and Return to Course”

- If you selected a Voice Thread that has already been created, click “Share”
